## Wed Developer

- Website creation
- Website update
- Domain Registration
- Domain Hosting

## Objective:

To assist clients in increasing their business through the development of attractive, engaging, and informative websites.

## Journey:

Creating websites has been a hobby for over 14 years: including sites for a diving committee in Bahrain, a Bridal Store in Texas, an Elk Ranch in South Dakota, and my classrooms. Teaching abroad has been a fantastic experience where I have delighted in using my resourcefulness and creativity. Excellent communication skills as well as an ability to engage, and enthuse are central to my success both in teaching and web development. The dual emphasis of design and marketing in my education has given me the foundation for my work in both teaching and web development.

## Languages

HTML,XHTML, XML  
CSS  
PHP  
JavaScript

## Web Applications

Photoshop  
Dreamweaver

## Education and Certification

Web Technologies Certificate  
Web Programming Certificate – Pending  
ACELS Certificate in English Language Teaching  
California Multiple Subject Teaching Credential  
Bachelor of Arts, Fashion Merchandising

## Web Development Experience

### Healing with Wholefoods

<http://healingwithwholefoods.ie> (Current Project)

- Create website to client's specifications
- Construct clear, logical IA for content heavy site.
- Include unusual eye-catching graphics
- Site will include secure contact form using PHP.

### Slow Food Clare <http://slowfoodclare.com>

- Worked closely with committee members to update Festival Programme.
- Redesigned slowfoodclare.com
- Created contact pages using PHP
- Created JavaScript photograph slide show.
- Created Facebook page.
- Maintain site as a committee member.

### Hog Muscat [Archived here](#)

- Designed and Maintained website
- Created random image banner using JavaScript
- Created slide shows about club events
- Sent e mail web pages to members
- Created Guest Book using PERL CGI
- Created 'Ride Tips' blog
